

PROJECT

Lawn Twister

Take advantage of your green lawn and create a giant board game. Encourage children and adults alike to test their balance and twist like pretzels.

MATERIALS

10"x10" Cardboard
Yard stakes
String
Marking spray paint in green, red, blue and yellow

TOOLS

Scissors
Hammer

01

Create a template for the circle. Draw a circle of 7 1/2" in diameter on the cardboard.

Tip: The bigger the circle, the larger the board will be, and the harder is it for smaller children.

02

Cut out the circle using scissors.

03

Determine the dimensions of the board

Tip: The more players the more circles you'll need. A traditional Twister has 24 circles for a maximum of 4 players, plan adding 6 circles per extra person.

04

Establish the perimeter of your board using stakes and string.

05

Using the cardboard circle template, paint circles on the grass with spray paint, alternating rows of colors for a traditional Twister pattern. You can also mix the colors up for extra fun. Wait for paint to dry.

Get the Twister spinner and twist like pretzel, falling to the ground laughing.
